GREENSBORO, NORTH CAROLINA, FRIDAY, MAY 13, 1955

JAPANESE VISITOR—Miss Yukie Kinoshita, left, assistant chief of the women's section, Women's and Minors Bureau of the Ministry of Labor of Japan, is shown as she visited with Proximity Plant employee Mrs. Stacey Jones, at her home, 1224 Fairview Street, last Friday afternoon. The Japanese government representative, who lives in Tokyo, is spending a few months in the United States making a survey of the life and work of employed women who also keep house. Her visit is under auspices of the State Department.

Japanese Visitor Learns How Employee Manages Job and Homemaking

When the assistant chief of the Woman's Section, Women's and Minors Bureau of the Ministry of Labor of Japan came to Cone Mills communities last Friday looking for a typical woman textile employee who does her own house work, she found a number one example in the happy, well-adjusted Mrs. Stacey Jones, 1224 Fairview Street.

Survey On Women Workers
Miss Yukie Kinoshita of Tokyo, Japan, whose name means "snow flakes under the tree," is visiting various parts of the United States under auspices of the State Department, doing research on how women in this country work and live. Her survey includes information on living conditions in homes and working conditions in factories.

Different in Japan
"It is all so different from what we have in Japan," she smiled and nodded.

(Editor's Note: Among those differences are the fact that most textile workers are young girls who usually do the work of men, are paid on an average of 13 cents an hour, eat very little (mostly rice) and receive lodging in dormitories equipped with straw beds, which of course is in the Japanese manner of bedroom furniture. They also work on roller skates to speed up production of the mills.)

Amazed By Local Woman
Miss Kinoshita pointed out that women in Japan hardly ever continue outside employment after marriage. She was interested in the fact that Mrs. Jones, who has been employed at Proximity Plant for 27 years, has six children, five of

them living at home and going to school, and one married, who has one child of her own.

Day's Schedule
The local woman does all of her housework except preparing lunch each day. Her husband does that.

By the time she has picked up her garden and yard equipment, Mrs. Jones gets supper ready for her busy family when they come in. The boys, Willie, Bobby, Wayne and W. S., Jr. have after-school jobs and usually have different

Textile Ministers Hear School Head

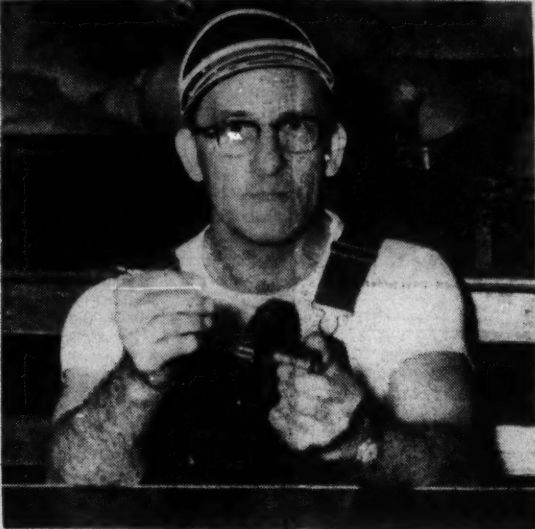

C. E. Rankin, principal of the Proximity School, spoke to the Textile Ministerial and Religious Worker Association Wednesday on the subject, "A New Look at Youth in the Light of Responsibility of the Home, Church, Y.M.C.A., and other Civic Agencies in our Community."

The speaker took a very optimistic view of the youth in this new look, stating that in 24 years in education he was convinced that we have the finest youth of any generation, and he had the utmost confidence in their ability to cope with every situation in the future even better, perhaps, than their elders. He felt that parents tried to appraise the outlook of youth at age 15 in the light of their 30 years of experience in adult life. He further based his confidence in youth on five major concepts, as follows:

"The youth of the future will face a world of congestion. The population outlook for 1975 in America, is 200,000,000. Families of today still have elbow room in which to live, but the youth of tomorrow will live in smaller quarters, more compact units, but they will meet the situation admirably.

"Youth of today is living in the atomic age. This invites a new and realistic look into tomorrow's world. We feel that youth will be adequately prepared to meet the new age and adjust himself to the conditions.

"Youth will be living in a world of rapid travel. The horse and buggy days, T Model Ford, the mid-

WHITE OAK SUGGESTION—Cone Mills recently gave a cash award to General J. Sweeney, employed on the second shift in the Spinning Department at White Oak, for his suggestion. This was to build up the stop block on the worm gears of the spinning frame to stop the worm from riding the builder gear when the travis is wound down after each doff.

Nine Cone Units Receive Industrial Safety Awards

Approximately 29 representatives from Cone Mills Corporation attended the Safety Awards Luncheon sponsored by Greensboro Industries, Inc. and the Greensboro Chamber of Commerce, Wednesday at Bliss Restaurant. Speaker was Frank Crane, North Carolina Commissioner of Labor.

Receiving certificates for no lost time injuries during 1954 were Tabardrey Plant, Haw River; Edna Plant, Reidsville; Power Plant, Revolution Rayon Plant and Guilford Products. Others receiving safety awards were Randleman Plant, Minneola Plant, Gibsonville, Knox crew and central maintenance.

Tabardrey has now run 22 months without a lost time accident, and Edna has run 16 months without one of the same. Guilford Products, Cone diaper plant, has operated since it was opened without a lost time accident, according to Wallace Bourne in charge of Cone Mills safety records, who was among those attending the luncheon meeting.

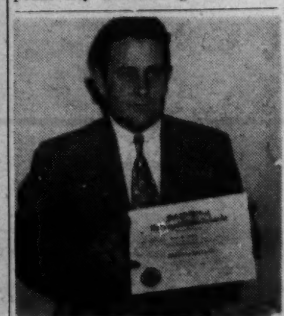

Local plants were represented by Rawley Meadows and Stokes Rawlins, Guilford Products; Pat Lambeth; Knox crew, Dan McConnell; Revolution Rayon, Charlie Rink, Harvey Gordon, J. W. Ritter, C. A. Roddy, L. D. Smith; Charles Kerchner, T. G. Hatthcock, Power Plant.

Plants away from Greensboro were represented by Arthur Makin, Dick Mitchell, Irwin Williams, Tabardrey; Mrs. Elizabeth Harviel, S. L. Adams, Randolph Stone, Edna Plant; Ralph Allen, Ralph Wood, Minneola Plant; Roger Johnson, Taft Murray, Randleman Plant.

George Hamer of the Personnel Department, Leah Nell Masters and Bob Weaver of The Textorian, were also present.

Jim Marvin To Present Driving Rodeo Awards

Jim Marvin, Cone Mills Traffic Department, has been invited to present the prizes in the Teen Age Driving Rodeo tomorrow afternoon at Memorial Stadium. The event is jointly sponsored by the North Carolina Motor Carriers Association and the Junior Chamber of Commerce. Winner in the local elimination will go to Winston-Salem for the state finals. State winner will be awarded \$100 plus an all-expense trip to Washington.

PROXIMITY MAN WINS DIPLOMA—Jessie W. Meyers, assistant overseer of Weaving at Proximity Plant, is shown with the ICS diploma he received recently for successfully completing a supervisors course in cotton warping and weaving.

Camp Recreation Center Opens June 1

Camp Herman Recreation Center will open for its second season on June 1, and remain open through Labor Day, September 5. The facilities of the Recreation Center will be available to all Cone Mill employees and dependent members of their families. The equipment is available for families to go out with picnic baskets; campus games of shuffle board, horseshoes, ping pong, boating, fishing, swimming.

A new raft has been erected, and will be ready for use by the official opening date; the boats have been repaired.

Larger groups, such as Sunday school classes, church groups, civic and educational groups should call the Y.M.C.A. for reservations when they would like to use the kitchen, dining room, or council ring. The facilities may be reserved well in advance of working up any group or party.

In this way your party is assured of a delightful and pleasant experience. All reservations are honored on the basis of first come first served, but once they are reserved then your privileges are guaranteed," states H. M. Angel, general secretary of Cone Memorial YMCA.

Claude W. ("Dick") Weaver, Jr., will be our official life guard, aquatic director, and water front supervisor for Cone Mills employees, and he will have charge of the entire lake front.

Schedule will be 10:00 a.m. to 6:00 p.m., Tuesday through Saturday; 1:00 p.m. to 6:00 p.m. Sunday.

Monday will be a day off for the camp staff, at which time there will be no waterfront and recreational activities.

Engineer's Daughter Wins Literary Honor

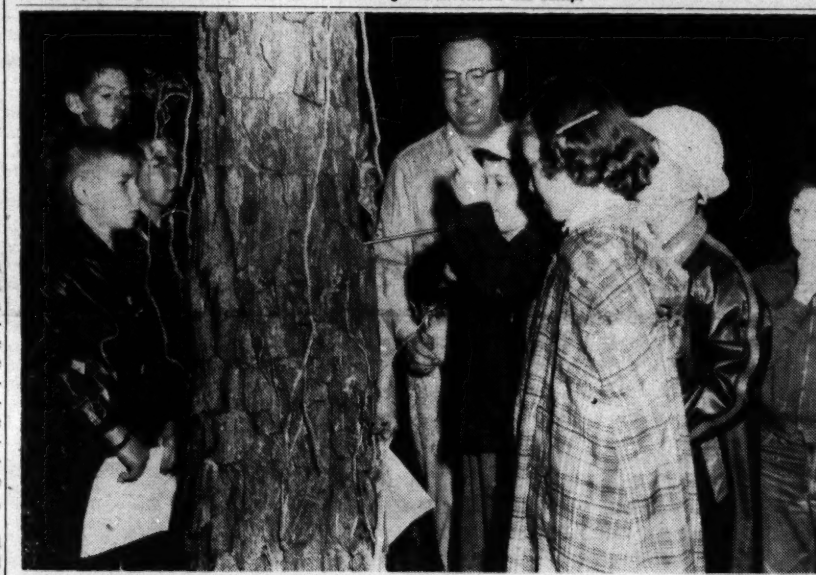

Amanda McConnell, daughter of Cone Mills engineer Dan McConnell and Mrs. McConnell, has won second place in the Freshman Essay competition at Duke University. Her essay, which was published under the title "Bus Station" in the Winter quarter issue of The Archive, student literary publication, was entered under the title "A Study in Southern Summer."

Charles E. Ward of the department of English at Duke has sent the following letter to Senior High School Principal A. P. Routh:

"It is a great pleasure to me to report that one of your former students, Miss Amanda McConnell, now a first year student here, has been awarded second prize in the Freshman essay competition. Her

STUDYING INSECTS IN THE FIELD—These campers from Ceasar Cone School are studying insects where they find them at the Crabtree State Park. They recently spent a week camping there. Dr. Eldon of North Carolina State College, Raleigh, lower center, is the instructor. The campers are, left to right, clockwise, Bobby Leverett, Gene Haynes, Catherine Haynes, Clarissa Warren, Billy Morris, Frankie Sue Poe, Nancy Harris, Larry Cuthbertson, Scottie Smith, Ann Harris, Dennis Robinson, Charles Garner and Jack Johnson. Sixty boys and girls from the local school's fifth grade attended the camp.

LEARNING A TREE'S AGE—Walter Keller, center district forester, Forestry Extension Division of North Carolina State College, enjoys seeing campers learning the age of a tree. These boys and girls from Ceasar Cone School attended the week's camping period at Crabtree State Park recently. They are, left to right, clockwise, Harry Gwyn, Tommy Matherly, Carl Mabe, Brenda McCaskill, Brenda Gilliland, Jimmy Leonard and Michael Williams. R. Thorpe Jones, audio-visual director of Greensboro City Schools, made the above photos.

Ceasar Cone Students Go On Week's Camping Trip

Sixty fifth grade boys and girls from Ceasar Cone School spent the week of April 24-30 at Crabtree State Park (located half way between Durham and Raleigh) in their first school camping program. This was a new and exciting experience for these youngsters, many of whom had never spent the night away from parents.

How It Came About
Just how did this program come about? Last fall, the two fifth grade teachers, Mrs. Irene Lineberry and Miss Brytte Heffner visited Crabtree while the four fifth grades from Lindley Elementary School were spending a week in school camping. Both teachers came home and talked to their grades about the possibility of Ceasar Cone fifth grades' having a week at Crabtree. The boys and girls were ready for

such an experience because all Cone teachers in grades 1-4 had given their children a wonderful background in appreciation of the out-of-doors and in the need for conservation of our natural resources. Misses Agnes Cox and Etta Schiffman had done outstanding work in the study of flowers and wildlife last year. The children in Miss Ruth Lindley's second grade have for the past number of years had a thrilling experience in study-

ing spiders.

Children Invite Instructors

Parents were invited to school to hear the camp program discussed by Dr. Hollis Rogers from Womans' College and Miss Ethel McNairy, principal of Lindley Elementary School. So plans were begun in the fall. The children wrote letters to invite instructors for the camp. Foods were studied, menus were worked out, duty schedules for each child were arranged, cabin mates were chosen, fire buckets were painted, stoves were made from No. 10 tin cans for the "cook-out". Each child made a notebook in which everything that he wants to do at camp was listed.

Children Raise Funds

The problem of having enough money to finance the program arose. Several generous donations were made. The children sold greeting

(Continued on page 4)

TABARDREY MEN WIN DIPLOMAS—These employees of Tabardrey Plant, Haw River, are shown with the diplomas presented them by International Correspondence Schools recently after their completion of the required courses in a particular field. At left is Odell Odell Chatman, overseer of Carding and Spinning, who has had 25 years service with the plant. His diploma is in cotton carding and spinning. Center is Irwin Williams, plant personnel assistant, whose diploma is in cotton manufacturing. At right is Ivan W. Ray, assistant overseer of Weaving, who has been with the plant 24 years. His diploma is in cotton manufacturing.

25-YEAR AWARD GROUP—This group of employees on third shift, Spinning Department, Eno Plant Hillsboro, recently received bonus checks in honor of their 25 years service with the plant. They are shown with James Webb, third from left, Cone Mills vice president. Employees who received awards are T. E. Rice, assistant superintendent; Mrs. Ruth Talbert, Mrs. Josie Wagner, Mrs. Minnie Offen, Mrs. Henrietta Hicks and Shellie Hicks.

Must Not Let Up

Since the foreign trade bill introduced in and passed by the House as HR-1 has now passed the United States Senate with certain amendments, we feel sure that our readers will be interested in knowing the present status of the situation.

Although the bill has now passed the Senate since the amendments were added, there will have to be a conference between a joint House and the Senate Committee to reconcile the differences.

It is apparent that the bill as passed by the Senate will also be acceptable to the House. The chances are that the bill as it now stands will very shortly be enacted and signed by the President.

The action taken by the Senate through amendments is an improvement insofar as the textile industry is concerned. However, we cannot be too optimistic for the textile industry although the extent to which tariffs can be reduced has been to some extent limited by a specific amendment. Other Senate amendments to HR-1 were sponsored by representatives of the textile industry.

To sum it all up, even though the bill as it now stands is not as detrimental as the original bill, we have little to "crow over." Neither present nor contemplated legislation, nor the attitude of the administration affords much comfort to the textile industry and the hundreds of thousands dependent upon it for livelihood. Not much more can be expected from Congress during this session to safeguard the textile industry, but it is very important that a program be set up to wage a continuing battle to preserve our textile industry which is just as American as the cotton farmer, or the hot dog, or the American free press.

Various members of the administration have stated that the textile industry will not be sacrificed. That remains to be proven. Even though certain leading Americans such as Senator Gore have been very critical of the textile industry for waging its battle to preserve its life, we must not let up in trying to do that very same thing.

We cannot sit by and be so naive as to believe that our industry will be protected against cheap wage, foreign imports by just merely leaving the matter in the hands of the administration or even the Tariff Commission.

As we watch and wait, we must continue to plan for the future. We must state that there are many elements involved which can well lead us to believe that all is not well.

Guilford Products News

By Mary McAdee

Employees of Guilford Products Company won a safety certificate award for no-lost time accident for the third consecutive year. This certificate was presented to Rawley J. Meadows, superintendent, at the Bliss Restaurant, Wednesday, May 11.

Cindy Lou Bateman, granddaughter of Mr. and Mrs. Rawley J. Meadows of 1506 Walnut Street was Christened Sunday, May 8, at Newlyn Street Methodist Church. The Bateman family are visiting here for a week from Glen Burnie, Md.

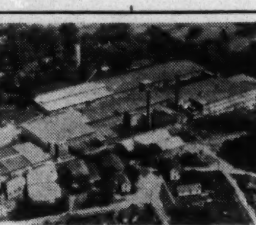

A Mother's Day program was held Sunday afternoon May 8, at

the E.W.O. Baptist Church. A prize was presented to Mrs. Esther Horton for being the oldest Mother present and Mrs. Cara Caddell for being the youngest Mother present. United Harmonizers rendered a program at the E.W.O. Baptist Church Sunday night May 8, sponsored by the Ladies Auxiliary.

"He's much stronger, Doctor... Today he got up and chased me three times!"

Believe It or Not!

Eno Plant News

by Edna S. Ellis
 and Helen M. Johns

Misses Carol Ann and Jackie Sue Rock, daughters of Mr. and Mrs. Jack Rook spent last weekend in Burlington as guests of Mr. and Mrs. James Wagner, former residents of the West Hillsboro Community. Mr. Rook is employed in the Weaving Department on first shift.

Congratulations to John Dickson! John, Overseer in the Weave Room at Eno Plant, won a seat with the Town Commissioners in the election held last week.

J. C. Porterfield, son of Mrs. Alma Porterfield, has returned from a visit in Roanoke, Va. with his sister.

Mr. and Mrs. Coy Hicks had as guests last weekend Mr. and Mrs. Crawford Erwin and family of Roanoke Rapids.

Mr. and Mrs. Clay Roland and Mrs. Delia Frederick of Franklinton spent last weekend with Mr. and Mrs. Douglas Batton, who have moved to Oconeechee to the home they purchased from the Marion Allison.

Mr. and Mrs. Roscoe Walser visited in Burlington last Sunday with relatives.

On the sick list for this week are Jack Dabbs and Aubrey Rook of the Weave Room, Mrs. Hattie Crab-

tree of the Spinning Department, little Dennis Justice, son of Mrs. Geneva Justice of the Weave Room and Mrs. Beatrice Holmes of the Spinning Room, who underwent eye surgery at McPherson Hospital two weeks ago.

Why Attend Safety Meetings

"Why is it necessary to attend safety meeting when my gang has no accidents?" This is a question you have probably often asked yourself. It is a good question. It requires a good answer.

Have you ever watched an outstanding actor, artist, musician, or writer? In order to maintain the best performance, he rehearses and practices consistently to keep in trim, every player individually and all players as a team.

Did you ever see a pitcher with two out and two strikes on the batter "ease up"? If so, you have seen the batter slam the next one over the fence.

We are no different than the musician, the actor, or the baseball player. We should not only attend safety meetings, but also take part in the discussion in order to keep trim, so to speak. After all, the man who makes the good safety record is the one who benefits. (Mich. Mut.)

Pineville News

by Mary Robinson and Inez Culp

Mr. and Mrs. H. T. Atkinson and Mr. and Mrs. Carl Crump visited Rev. and Mrs. Howard McGinnis in Valdese, last week end.

Representative for the Textorian Mrs. Mary Robinson injured her foot in a fall from her back porch steps several weeks ago. After limping around at work for four weeks she consulted a doctor to find out that a bone in her foot was broken. We all hope she will be back with us soon.

Mr. Frank Ferguson, Assistant Overseer of the Spinning Room and Flem James, Overseer of the Card Room were elected to the office of Councilmen on the Pineville City Council. We all congratulate them and wish them a successful tenure of office.

Congratulations to Mr. Grady McKeown on the fine job he has done in constructing a little league base ball park here in Pineville. Mr. McKeown has raised the money for the park, and done most of the work of constructing single handed. We are all very proud of the job he has done.

The children of Pineville's first and second grades just received the Salk vaccine last week. We all hope that this will be the beginning of the end of that dread crippling disease.

Sympathy goes out to Joe Lavender whose father passed away last week. The funeral services took place in Spartanburg, S. C.

Thirty-five million Americans weigh total of 560 million pounds too much, which has made the dietetic food industry a 100 million dollar business.

New Opportunities For Youth In Engineering And Science

Why are more and more parents guiding their youngsters toward successful careers in the engineering profession? There are good reasons.

Next June many young men and women step out of our engineering and scientific colleges into positions that pay higher than average starting salaries.

Largely because of sound parental advice and educational guidance as early as the grade school years, these young, engineering graduates will have a head-start on other young people in professions that have become the most important and critical in America today.

What future awaits these young men and women engineers and scientists?

For one thing they will be employed immediately after graduation: Most of them have already been sought out by industry and business to fill the nation's fast-growing technical demands. Long range needs in all phases of the economy demand many more. The nation's growing dependence on technology and the dawn of the atomic age point to a need for engineers for many years to come. They have limitless opportunities.

Young engineers are sought after today at higher than average starting salaries. No field of endeavor offers more opportunity for advancement.

Safe!
 it's **Safe!**

 and
TRUCKING COMPANY
 (Bonded)
 Phone 2-1547-207 Walker Ave.

holds more opportunities for advancement and there is no limit to what they may make at top levels in their profession. They will be doing interesting work.

Today's engineers are working in all phases of the economy. They constantly work to improve modern business and modern living. Engineering graduates will join other engineers working on rocket design and electronics; business management, highway construction, food processing and production. Many will become the salesmen of today's intricate machines to manufacturer and consumer alike.

They will be doing useful work:

Engineers are serving mankind in every field. The food, clothing, shelter, transportation, communications, heat and light used in this country are only some of the things which engineers help to produce.

The graduates who go out into industry and business will be working for progress, for peace and for the defense of the American way of life.

More than any other group, these young people with professional training offer something modern industry wants and needs.

Engineering is open to those who start preparing for it long before entering college. Certain high school subjects are required to qualify for engineering training. These subjects—including mathematics and the sciences—are not only essential to the prospective engineers but, moreover, they are useful in all professions.

For youngsters who wish to be engineers there are aptitude tests to determine ability. For many, there are scholarships provided by industry at leading engineering colleges throughout the country.

Funeral Held For Granite Employee

Final rites for A. L. Thompson of Granite Plant, Haw River, were held on Thursday afternoon at Haw River Christian Church. Mr. Thompson was one of the oldest employees of the Granite Plant. He was 78 years old and had been employed in the packing and shipping for the past 25 years. Two weeks ago he received a reward for his service with the company.

Rev. Dwight Jackson, assisted by Rev. Robert Bruhn of the Haw River Baptist Church, and Rev. Poole of the Graham Baptist Church officiated at the services.

Survivors include his wife, Mrs. Amelia Sweete Thompson of the home; six daughters, Mrs. C. R. Childress of Haw River, Mrs. R. G. Brown, Mrs. N. C. Cox, Jr., Mrs. L. B. Crawley, and Mrs. J. R. Anderson of Burlington, and Mrs. B. M. Graves of Graham; two sons, Albert L. Thompson, Jr. of Haw River and Frank Thompson of Burlington; two sisters, Mrs. G. W. Pearson of Haw River and Mrs. M. G. Bishop of Brown Summit; and twelve grandchildren.

Burial was in Alamance Memorial Park. Pallbearers included W. M. Leach, J. C. Clayton, A. S. Mora Elmer Harrington, O. O. Chatman, and A. S. Albright.

MINISTERIAL

(Continued from page 1) night express are all obsolete modes of travel. The jet propelled planes travel faster than time. He may have breakfast in New York and breakfast in San Francisco the same day, and again youth will be well prepared to enter into this rapid world of travel.

"A world of national, international and world communities, no part of the known world is now remote; the telephone, radio and television have cut across all international boundary lines, and brought us face to face with any town or city in the world."

"Youth will be amply fitted for the integrated world, at the point of living peacefully with all peoples of the earth, and with all nationalities, each retaining their racial identity, and their cultural and social backgrounds."

The speaker's strongest point was that youth is influenced by his home life with reference to philosophies, attitudes and ideals, more than any other agency within the community, and that youth needs a good experience at the home level, being a part of, and being accepted in the home, and taught to respect the home and parental authority. He urged parents to make it a daily or weekly experience of living and working with their children.

ENGINEER'S

(Continued from page 1) essay is entitled 'A Study in Southern Summer.'

"I know that you join me in congratulating Miss McConnell on the receipt of this honor, which will be recognized on the commencement program of the university this year."

"I hope too that you will convey on my behalf, congratulations to the teachers in the English department of your school who have so well prepared this student for college work."

"With all best wishes for the future, I am
Sincerely yours,
Charles E. Ward"

Proximity P.T.A. Elects Officers

Proximity Parent-Teacher Association elected officers for next school year at this year's last meeting Tuesday night. Richard Sullivan, out-going president, was in the chair. Mrs. Merlin Beaver is the incoming president.

Other officers are Mrs. W. E. Stanley, first vice president; Mrs. Garland Seabolt, second vice president; Mrs. Jack Hughes, secretary; Mrs. J. W. Ritter, treasurer.

Committee chairmen are Mrs. Melvin Fields, finance; Gary Teague, goals; Mrs. J. T. Mills, health and summer round-up; Mrs. Hannibal Moore, hospitality; Jack Stanley, juvenile protection; Watson Tucker, legislative; Stephen Vaughn, magazine; Mrs. Evelyn Edwards, membership; Mrs. Eugene Hood, music; L. E. Redding, parent education; Mrs. Garland Seabolt, program; Mrs. Bernard Poole, publicity; Mrs. Ralph Tippet, recreation.

Room representative chairmen are Mrs. Charles Jones, elementary; Mrs. John Scott, seventh grade; Mrs. Frank Starling, ninth grade.

Safety chairman is Walter Gardner; scrapbook, Mrs. Margaret Smoot; spiritual education, Mrs. Winfred Powers; Mrs. Paul Holyfield, welfare.

The ninth grade home economics class of Mrs. Helen Zink gave a fashion show modeling dresses they had made. Judy Kendrick was announcer, and Joyce Anderson and Jeanie Sullivan were commentators.

Entre Nous Club Hears Nurse From Haiti

After hearing Miss Caroline Bradshaw tell of her work as a missionary-nurse in Haiti and after seeing slide pictures of scenes there, members of the Entre Nous Club voted to donate \$20.00 to help her buy supplies.

Miss Bradshaw commented that that would buy a new baby bed for their hospital there. The gift was suggested by Miss Nell Walker, club projects chairman.

Mrs. Audree Anthony, out-going president appointed Mrs. Margaret Bradford to plan the summer picnic.

Devotional was conducted by Mrs. Polly Medearis. Leilah Nell Masters made a brief talk entitled, "Look Now, Your English is Showing!"

The club will resume regular meetings next September.

White Oak Matrons To Hear Missionary-Nurse

White Oak Matrons will hear and see slide pictures by Miss Caroline Bradshaw, missionary-nurse from Haiti, when they meet for their next meeting on Wednesday, May 18 at White Oak YMCA. All club members are urged to be present.

Carraway W.S.C.S. Has Church Program

Woman's Society of Christian Service of Carraway Memorial Methodist Church met last Monday night at the church. Mrs. Lee Lindsay presided.

The program was in the charge of Circle No. 5 with participants being Mrs. Julius Ozmert, Mrs. Watson Tucker, and Mrs. Frank Starling.

The women were urged to hear Miss Evelyn Strader, missionary to India who will speak at the 11 o'clock service next Sunday morning at the church.

Pythians Paper Drive Sunday

Sunday, May 15, at 1:00 p.m. the Knights of Pythias in conjunction with the Jaycees will hold their periodical paper drive. Residents are being asked to place all newspapers and magazines on the curb, tied with string or rope so as to make the handling much easier and more rapid. All proceeds will be used by both organizations for local charitable purposes.

Cone Denim Draperies In Public Showing

Attending a special press showing of the 1955 Leather in Decoration Show at Magnolia House, Kernersville, recently, we noticed that one set of draperies was of Cone denim.

This first public showing of the Leather Show will be open from 2:00 to 5:00 p.m. daily through May 27.

Magnolia House is the studio of Reginald Styers Associates.

Cone Y.M.C.A. Board Meets Next Tuesday

May meeting of the board of directors of the Cone Memorial Y.M.C.A. will be held Tuesday, May 17, at 7:00 p.m., at the Proximity Branch, Raymond Kincaid, president. All members of the board are urged to be present, and all committee chairmen are requested to bring in their respective reports from their committee meetings.

Proximity Church Circle Elects Officers

Sally Sims Circle of Proximity Methodist Church met at Proximity Y.M.C.A., in the Ladies Social Room on Monday night, May 9.

Mrs. Paul Holyfield presented a program on "We Give Thee But Thine Own."

The business meeting was presided over by the chairman, Mrs. Holyfield. New officers elected for the coming year are:

Mrs. Woodrow Hanner, vice president; Mrs. Garland Seabolt, secretary; Mrs. John Scott-treasurer; Mrs. Hattie Noah, social relationship chairman; Mrs. James

Brewer, publicity chairman. Mrs. Holyfield remains chairman. A social hour followed the business meeting, and Mrs. Sally Sims was honored with a surprise birthday cake. She is an honorary member of the circle.

State Industrial Safety Conf. May 18-20

North Carolina Twenty-Fifth Annual Statewide Industrial Safety Conference will be held in Winston-Salem at Robert E. Lee Hotel next Wednesday, Thursday, and Friday, May 18, 19, and 20.

One of the oldest safety conferences in the nation, it is planned to give industrial men contact with leaders in accident prevention work and in industry in general, to help to inform them of new developments and ideas, and to provide in spiration for safer plant operation. There will be general sessions with outstanding speakers, including Dr. George D. Heaton, and section meetings for textiles, nurses, electrical, construction, and others interesting to Cone employees.

Cone Legion Post To Elect Officers

Cone Post 386 American Legion will elect new officers at its meeting tonight at 7:30 in the Legion Hall. Commander Lloyd K. Parsons will preside.

The new metal folding chairs ordered by the club room committee will be used for the first time at this meeting.

All members are urged to attend.

CAMPING

(Continued from page 1) cards. The whole school became aware of the project. A talent show with each grade participating was given and the proceeds given to the camp fund.

Mr. and Mrs. James W. Culbreth, Mrs. Dora Cook Mullins, Mrs. W. H. Michael, Miss Heffner, Mrs. Lineberry and Mrs. Wall and a group of fifth grade boys spent Saturday, April 23 at Crabtree getting the camp ready for the children.

Parents brought their children down to camp on Sunday afternoon and left them in the hands of an able staff—Mrs. Lineberry, and Miss Heffner, the fifth grade teachers; Mrs. Margaret Y. Wall, principal of Cedar Cone School; Miss Ethel McNairy, principal of Lindley Elementary School; Miss Doris

Hutchinson, supervisor of health and physical education in the Greensboro City Schools; Dr. Hollis Rogers, professor of biology of Woman's College, and eight of his students who acted as counselors, Misses Eloise Bates, Patricia Long, Clarissa Warren, Mary Elizabeth McDill, Clara Ramsey, Ann Painter, Lou Alice Sawyer, Patty Wilhelm, Jane Higgins, assistant in biology at Woman's College; three of the mothers who had charge of the kitchen, Mrs. W. P. Cable, Mrs. W. G. Pursley, and Mrs. H. E. Wyrick; a mother Mrs. J. W. Layton who served as camp nurse, and Frank Poe, the school custodian.

Many Courses

Each student had the opportunity to participate in the following courses under the respective instructors: Water Biology—William Hammet, N. C. Wildlife Commission; Nature Trail—Dr. Hollis J. Rogers; Soil Conservation—G. L. Winchester, U. S. Dept. of Agriculture, Raleigh; Forestry—Walter Keller, District Forestry, Forestry Extension Division of North Carolina State College; Forest-Fire Safety—Grady Harris, Wake County Forest Fire Prevention Commission; Wildlife—Miss Lunnette Barber, N. C. Wildlife Commission; Insects—Dr. H. Eldon Scott, N. C. State College; Rocks and Minerals—Mrs. Margaret Y. Wall; Arts and Crafts—Mrs. Irene Lineberry and Miss Brytte Heffner.

On Friday afternoon the children met in their respective groups for the "Show and Tell" period. Each child showed and told about something which he had learned and which was of special interest to him. The prize show and tell was a bed of young rabbits which Michael Brewer found and kept a secret until Friday afternoon.

Dr. Rogers took those children who had fishing permits on early morning fishing trips. Everett Ford was the champion fisherman. Miss McNairy and Mrs. Wall led early morning bird walks.

Evening Programs

The evening programs of singing, stunts and folk dances were directed by Miss Doris Hutchinson, Mrs. Margaret Marsh, assistant music supervisor of the Greensboro Schools, and Taylor Dodson, state supervisor of physical education. A vesper service was given by the children at the close of each evening program.

Camp Visitors

Visitors at the camp included Miss Lucille Browne, guidance director of the Greensboro City Schools; R. Thorpe Jones, audiovisual director; William R. Caffrey, principal of Caldwell School; Dr. Thomas D. Reynolds from the De

partment of Education at Duke University and a group of his students; Clifford Edwards, principal of Fred Olds school in Raleigh; James Dunlap, director of resources-use education in the State Department of Education who made movies of the group; Miss Virginia Nash, and Mrs. Harvey Varner, from the Girl Scout Office in Raleigh; Bill Higgins, from Greensboro Senior High School; Allen Rebeck, Misses Louise Lyerly, Jo Ann Meacham, Jan Deans, Mary Buckner, Katherine Currie, Anne McCil land, Nancy Mitchell, Mary Saunders, Iola Shearin, Peggy Tesh, and Barbara Wilkerson, from Woman's College, and Miss Mary Ellen Gibbs, fifth grade teacher from Kernersville.

Campers

The boys and girls who attended camp were: David Barbour, Michael Brewer, Eddie Cable, Tony Craig, Larry Cuthbertson, Everett Ford, Charles Garner, Edwin Hall, Gene Haynes, George Hipp, James Holder, Jack Johnson, Johnny Layton, Bobby Léverette, Billy Milam, Roger Moffitt, Billy Morris, Dennis Robinson, Steve Sells, Scottie Smith, Linda Craven, Ann Faircloth, Nancy Harris, Beulah Johnson, Peggy Lanning, Joan Lewis, Catherine Moore, Betty Oates, Ann Harris, Priscilla Ann Smith, Jerry Berkley, Roy Coffey, Burnice Council, Ellis Craig, David Denson, Henry Gwyn, Eugene Leonard, Jimmy Leonard, Charles McNeill, Carl Mabe, Thomas Matherly, Jerry Michael, Larry Michael, Donald Proctor, Roger Smith, Skippy Squires, Norman Watson, Raymond Wheeler, Michael Williams, Terry Wyrick, Becky Cable, Martha Collins, Brenda Cul

breth, Joy Freeman, Judith Gaudin, Brenda Gilliland, Kay Hartzoge, Ennis Hobbs, Brenda McCaskill, Ellen McDaniel, Christine Pursley, Ella Dean Walker and Frankie Sue Poe.

These boys and girls had an opportunity to relive their camp experience on Wednesday, May 11, when nine teachers, a supervisor, and a principal from the Mooreville City Schools spent the day at Cone School to learn about school camping.

JAPANESE

(Continued from page 1) hours for supper. "Sunday meals are about the only ones we can all eat together," said the employee-housewife, and of course, we all go to Sunday school and church."

Watches T.V., Drives Own Car. In spite of the fact that Mrs. Jones gets so much done after 3 p.m. each day, she still has time to watch television after she washes dishes and to get in bed by 10 o'clock each night.

Friday and Saturday are the days for heavier cleaning. It is then that she dusts the blinds, washes windows, cleans out the refrigerator, cleans out the stove, washes curtains, etc.

On top of all of this, Mrs. Jones makes all of her own clothes and those of her 13-year-old daughter. She used to make the boys clothes when they were small.

The local lady has time to call on friends, and very unlike the Japanese textile worker, she drives her own car.

All of the modern equipment designed to give help to the present-

day American housewife coupled with Mrs. Jones' excellent managerial ability accounts for her getting so much accomplished from day to day and at the same time being able to enjoy recreation.

Mrs. Jones expressed a desire to join one or more of the local YMCA service clubs for women, saying that she had not been able to do this, because until recently she has had the care of her late invalid mother.

The visit of Miss Kinoshita to Mrs. Jones' home was arranged by Mrs. Frances Funderburk of Cone Memorial YMCA staff. She was accompanied by Miss Martha Clark of the Greensboro YWCA staff.
